

Dear brothers,

The purpose of this letter is to coordinate the SST registration process. We are sending several documents plus this letter to all the churches participating in the Summer School of the Truth. The documents and their purposes are as follows:

- **Letter to the Parents:** Informing the parents of this years' SST date and reminding them of the burden for a one week intensified SST.
- **Serving One Application:** An application specifically for those who wish to serve the Lord in the SST as well as preparatory reading from the ministry and links to audio files of fellowship from Ricky Acosta, Dennis Cooley, Dennis Higashi and Tom Goetz. The serving ones should be encouraged to prepare for their service by getting into these materials as much as possible.
- **Student Application:** The application form for the students.
- **Rules:** A letter to the students and parents of fatherly exhortation, expectations, and regulations of the Summer School. Students and parents should read this letter together and both should sign it and turn it in with their application.
- **Full Health History Form:** This is a medical history form required by the Alliance Redwoods camp so that they can provide medical support during our time at the camp.
- **Medical Procedures and Check In Form:** This is a form for the camp for those students who require daily assistance in taking any medications. The camp medical staff will help support in this area.
- **Disclosure Statement:** For all serving ones, in addition to needing a background check, the camp also requires that a disclosure statement form be completed.

Brothers, we are requesting that the SST registration procedure be as follows:

- Announce that the SST registration is open and provide the above forms to the saints.
- Designate a serving saint to receive all the forms (including serving one applications, student applications, and signed letters of rules).
- Collect the registration from the young people and serving saints by June 14.
- The designated saint (with helpers if necessary) should collect all the registration information. In fellowship with the young people serving ones, the designated saint should assign the registrants to cabin groups, taking care to exercise discernment about which serving ones to be included with specific young people. We will provide at a later date specific details on how to formally register for SST.

For all serving ones for the SST a background check is required by the camp. We will need confirmation from each locality that a background check has been completed along with the date of completion. If you have any questions relating to this please reach out to Don Mangold (dmangold@sbcglobal.net).

Thank you so much for your help in this registration process and the prayers of the churches for the Lord to perform His will in this time. If there are any questions or any need for further fellowship, please contact Martin Yue (408-898-0212).

The SST Serving Ones
